

Hi Teams

Sorry for the delay in getting this out to you all.

At the first tournament teams will play every team in their group once. This will place teams in either the top or bottom three in their group. At the second and third tournaments the top three teams from group A and B will form a group of six and will play each other twice, the same will take place for the bottom three teams from each group.

This means the season will consist of 15 games and teams will play 5 games at every tournament they attend, hoping to consist of better quality games.

Game Play will be 7.5mins each way, and you'll Referee the game before you play.
